SHORTAGE OF MILITIA SUPPLIES IS DENIED

Secretary of War Baker's attention was directed yesterday to shortages of equipment and other difficulties which State troops in general and the New York militia in particular were experiencing in preparing for their service on the border. He issued a statement explaining that there was no shortage of necessary supplies for the State troops, but that there was a delay in getting equipment to its proper destination and that the War Department was doing its utmost to provide a remedy.

"There are, of course, some delays," said Secretary Baker, "owing to the necessity of sorting out the consignments of material from the warehouses, numbering and packing it and getting it aboard express trains to its proper destination. But the War Department is straining every nerve to eliminate these mistakes and get the State troops supplied as speedily as possible."

Ambrose Is Disbarred

The justices of the District Supreme Court, in general term, yesterday disbarred William E. Ambrose on a charge of dishonesty preferred against him by the grievance committee of the District Bar Association. The charge stated that in 1912 Mr. Ambrose converted to his own use \$4,200 of a fund placed in his hands as guardian of three children, under appointment of the Probate Court. Attorney Leon Tobriner represented the Bar Association, and Attorney James Easby-Smith appeared for Mr. Ambrose.

RIOT CALL ENDS GENERAL FIGHT

Autos Just Scrape, Then Business Men Battle, Dog Joining Fray.

L. Stewart Barr, manager of the Wyoming apartments and joint agent of the Southern Surety Company, is at liberty on \$2,000 bond, charged with assault with a dangerous weapon. James J. Lake, manager of the Carroll House, at 217 E street northwest, is in the Emergency Hospital with a possible compound fracture of the skull and Police-
man William H. Adams is nursing a dog bite on the right leg. All is the result of an alleged altercation between Lake and Barr in E street, between Eighth and Ninth streets northwest, about 8 o'clock yesterday afternoon.

The trouble started when Barr, in guiding his motorcar to the curb before the Carroll House, accidentally scratched the paint on Lake's car, which was already parked there, the police say. Then events followed so fast that Police-
man Adams, who broke up the racket, hardly knew what was happening until reserves from the First precinct station came clanging pell-mell into E street in response to a telephone call from some excited bystander.

Although Lake was badly used up in the encounter with Barr, who is alleged to have struck him with an automobile crank and knocked him senseless, it was Lake, according to Barr, who made the first pass, handing the apartment house manager a black eye, it is said. The rest of the details concern an alleged attack on Barr by friends of Lake, as well as the running amuck of a dog, which grabbed the first thing in sight—Adams' right leg.

The trouble began when Barr knocked the paint off Lake's car. In the ensuing argument, Barr says, Lake hit him, blacking his eye. Barr then knocked out Lake with the auto crank, it is alleged. When the policeman reached the scene, says Barr, Mrs. Lake and an inmate of the house attacked Barr, somebody's dog ran amuck and bit Adams, and a bystander turned in a riot call for the police.

Lake and the policeman went to Emergency Hospital. Barr's surety company gave bond for his release, and the reserves went back to bed in the station house. Lake's condition is said to be serious.

TO RUSH MEASURE.

Senate Subcommittee to Consider District Bill Today.

The Senate subcommittee in charge of the District appropriation bill will meet at 11 o'clock this morning to begin the work of marking up the measure. Items will be discussed in rotation and decided upon. The work will be rushed with a view to obtaining a vote on the earliest possible moment. No work on the bill was done yesterday. If the measure is not ready to be voted on by Saturday, a continuing resolution will be required.

Senator Sheppard, of Texas, yesterday introduced an amendment to the District appropriation bill providing that no part of the appropriation contained in the bill should be used to pay for the services of any person whose nomination as a member of the excise board has been rejected by the Senate. The amendment is aimed at Gen. Robert G. Smith, whose nomination as District exciseboardman was rejected by the Senate some time ago.

DEFENSE BILL REPORTED.

Senate Committee Adds \$5,000,000 to Fortifications Measure.

After adding \$5,000,000 to the bill, the sum to be expended in the purchase or manufacture of mountain, field and siege guns, the Senate Committee on Military Affairs yesterday reported to the Senate the fortifications appropriation bill. The Senate Committee struck from the bill the items submitted by the House appropriating \$750,000 for the purchase of the John Hays Hammond, Jr., radio-dynamic inventions.

New Schedule for Steamer.

In spite of the cool weather the moonlight trips of the St. Johns have been well attended and the dancing on the wide main deck of the big steamship has proven most enjoyable. Tonight and tomorrow night will be the only opportunities this week to enjoy these delightful evening rides on the St. Johns. Colonial Beach is now ready for its summer visitors. Thursday next the steamer St. Johns will begin her daily, except Monday, trips to Colonial Beach, leaving here Saturdays at 2:30 p. m. and other days at 9 a. m. Moonlight dancing trips will be made Tuesday and Wednesday of this week and on Mondays only for the remainder of the excursion season.

BAKER EXCUSES 114 GUARDSMEN

War Secretary Releases Navy Yard Recruits, Who Will Make Ammunition.

In line with the new policy of the War Department, to avoid building up the National Guard with employees of the various navy yards whose services in shell manufacture are more valuable than their services as militiamen, Secretary of War Baker yesterday excused 114 members of the District Guard who have been employed at the Washington Navy Yard.

This action was taken at the suggestion of the Secretary of the Navy, who said yesterday he was acting on the same principle as the British and French authorities, who kept men working on ammunition instead of sending them to the front.

"Their work in making ammunition was more important than their shooting it," he explained.

How far the exceptions in the National Guard will extend to others employed in service of the government connected with war supplies, has not yet been decided.

Some of Those Excused.

A partial list of the Navy Yard men in the Guard who are excused from service follows:

Yield Pork to Preparedness.

Ripon, in the State of Wisconsin, prefers "preparedness" to "pork." Senator Sheppard, of Texas, yesterday conveyed a resolution adopted by the common council, the Commercial Club and 466 citizens of Ripon requesting Congress to divert the \$75,000 recently appropriated by Congress for a public building at Ripon to the "equipment of the national army, preferably in the aviation service."
